C Programmer

Dedicated C# Programmer with a strong technical background and over 8 years of experience developing and maintaining software applications. Passionate researcher with a strong knowledge of broad areas, including planning, assessment, design, and features and functionality testing. Highly organized with a good team spirit and an ability to solve complex problems with accuracy and clarity. Looking to join an exciting and innovative organization for a C# developer position.

Experience

▪ Armed Security Guard

Safeguarding and Security Ltd.

2015 - 2019

During my time at the company, I secured many locations such as:

- Soroka hospital (2015-2016)
- IDF army base (2016-2017)
- Government VIP's (2017-2018)
- Project manager (2018-2019)

▪ Game Developer

Bullet Bears

2019 - 2021

My position as a lead programmer required me to:

- Supervise and delegate tasks to a team of [3] people.
- Pitch ideas on how to improve performance and efficiency
- Consistently meet my short and long-term targets.

▪ Tech Instructor

Beit Yatziv

2021 - 2022

I was teaching kids from the first grade to the seventh grade how to build robots and program them (WeDo2), program microchips (MicroBit), 3D modeling and using 3D printers.

Education

▪ Full matriculation

Yitzhak Rabin Highschool Beer Sheva, Israel

Sep 2006 - Jul 2012

- Provided assistance to struggling students.
- Expanded study subject: Art
- Honors in English

▪ Game Developer

Tiltan College Haifa, Israel

2017 - 2019

I studied:

- Game design
- Programming
- Unity & Unreal 4 engines
